

EDUCATION IS NOT A PRIVILEGE; IT IS A RIGHT.

More than 90 per cent of Gaza's schools have been damaged or destroyed.

“Before this war, Palestinians in Gaza had some of the highest literacy rates in the world. Education was a source of pride, resilience and progress for generations. Today that legacy is under attack: schools, universities, and libraries have been destroyed, and years of progress erased.

This is not just physical destruction – it's an assault on the future itself, because every child denied learning is a future engineer, doctor, teacher, or thinker taken from us before they've had a chance to shape their world.”

— UNICEF Spokesperson James Elder (27 January 2026)
